

Marco Paparelli

+39 320.8013.869 - marcopaparelli@gmail.com

Born in the province of Rome (Italy) on 09/09/83 and living in **Rome**.

Audio Engineering Society (AES) Member Number: 94049

Skills

Freelance Audio Engineer for live events, music and tv broadcasting.

For 20 years, I have been involved with audio mixers, PA amplification, broadcasting systems, radio frequencies, audio recording and audio networking. I regularly participate during the setup time.

I work for agencies, rental companies, productions, theater companies and bands. I live in Rome, but I also work outside the city. I constantly attend courses on the new products offered on the market.

My customers consider me responsible, punctual, focused and flexible, even on stressful jobs. I have gained experience in teamwork, problem solving and care of equipment. I have no obstacles to mobility nationally and internationally.
